Eduro Networks Launches Broadband and More in Washington County

Eduro Networks has officially launched business broadband services in Washington County offering speeds from 1.5Mbps to 100Mbps. Eduro Networks wireless broadband service are transmitted via towers in several areas throughout Washington County. Eduro has been servicing business customers in Frederick County since 2003, but has grown dramatically since 2007 when they launched voice services.

“We are thrilled to be in Washington County as there are very few choices for business broadband and the other broadband enabled services we offer” stated T. Wesley Poss., President and CEO of Eduro Networks. Poss also mentioned “We can offer not only choice, but scalable services with unbeatable prices”.

Eduro began test marketing the service this summer and the response has been very strong from Washington area businesses, who can now use the internet to enable their business to take advantage of other products eduro offers in VoIP (Voice over Internet Protocol), Remote Data Storage and Managed Firewall services.

For more information, please call 240-529-2000 x 104 or visit www.eduronetworks.com

Eduro Networks is Maryland's fastest growing privately held broadband data and voice service provider. We own our own high speed fiber optic wireless transport network allowing us to offer a flexible and competitive alternative to traditional wired networks. Eduro provides end-to-end 100% uptime including the "last mile" right to your network. With local service and support Eduro services all your broadband needs no matter what the size of your business.
